Information and notes

You can book the journey individual in winter as well – the travel dates are up to you. The travel appropriate to the itinerary can begin every Sunday and in the summer every Monday (**day 1 = Sunday/Monday**). We recommend to plan the journey between the end of May to the middle of September. The Lake Baikal is usually very long icebound (sometimes even in May), so the water stays cold even in the summer. We recommend to book your journey 6 months in advance. The latest possible and recommended time to book is 9 weeks in advance.

Minimum participants number: 2 people

If you are traveling alone or if there is an odd number of participants, you need to pay extra for single rooms in hotels. The extra cost depends on the option you choose.

Beyond 6 participants we offer a discount 50 € per person.

There are 1-2 toilets with washbasins in each carriage. Free boiling water is available in each carriage 24h from a samovar. There are no showers on most trains. Board restaurant in the train between Irkutsk and Ulaanbaatar is usually available only to the Mongolian border.

All prices are per person.

To make your journey planning easier, all arrival and departure times are given as **local destination times**. Please note that for all Russian destinations, arrival and departure times, including those at stations along the way will always be given in **Moscow time**, since this is how the times will appear at stations along the way, on timetables displayed within the carriages and on your tickets. Even the clocks on the platforms at the Russian stations you will pass through will show Moscow time. Clocks showing local times can be found inside the station buildings.

Itinerary and timetable is subject to change.

We recommend the travel cancellation insurance.

Our offer is valid only if all services are available upon booking.
